Subject: Heads up-ISA and Briefing scheduled for Nov 9

Evening David,
Before I leave for the weekend, I wanted to give you a heads up. We received an advance copy of the Ozone ISA.

Deliberative Process / Ex. 5

Tom Brennan will be in the office tomorrow, should you need any assistance (564-6953) or you may call my cell

Personal Matters / Ex. 6

Thank you,
khanna

Good evening David,

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

Thank you for asking for our input. I'll look at the following week for a briefing, khanna

Khana,

Thank you for the email. I have a question and a request.

CASAC and the PM ISA – from your perspective, what is the status of the charge questions to the Committee for review of the ISA?

I would prefer to push the SAB discussion until the following week, preferably Tues, Nov 6.

Thanks again.

DDD

Subject: SAB Staff Weekly Report for October 24, 2018.

Good Afternoon David

Please find attached the Science Advisory Board's weekly update for October 24^h. Once again, I am sharing our report with you to simply provide a heads up so that you may provide advance notice of any items you wish to flag or suggest anyone I should share information with. I am happy to work with Kevin, if you have a preferred way for us to let you know what's in the pipeline. My intent is simple-no surprises.

A couple of items to flag **CASAC** :

- 1) We continue to work with the press office/ORD/OAR as the Agency continues to respond to press inquiries (CASAC Announcement).
- 2) Now that members of CASAC have been announced, we have members confirmed for a teleconference on November 29 to review the Integrated Review Plan (IRP). FRN has been delivered to OP.
- 3) We secured logistics for a face to face meeting to review the Integrated Science Assessment (ISA) tentative Dec 12-13. FRN will be drafted to peer review the Agency's *Draft Integrated Science Assessment for Particulate Matter* (PM ISA), which is a comprehensive evaluation and synthesis of policy-relevant science aimed at characterizing exposures to ambient particulate matter (PM), and

health and welfare effects associated with these exposures. A Federal Register Notice announcing the meeting is currently being prepared.

4) A public teleconference of the CASAC NOx/SOx Review Panel and the Chartered CASAC is being planned for December 17, 2018, to conduct a quality review of the panel's report.

For **SAB**:

- 1) We posted the lists of candidates on the SAB website for a 21-day public comment period. We would like to set up a briefing
- 2) I will reach out to Kevin and Nathan to check your calendar for availability for a preliminary briefing late next week (Nov 1 or 2nd). Our goal for this briefing is to ask for your feedback on the options that were provided at the last briefing for future Chairs of the standing committees. This will help us define future briefings.

Please don't hesitate to call, if you have any questions or need additional information this week.

Thank you,

khanna
